SkillNavora

AI-First Product Management

The end-to-end program to become a confident, job-ready AI product manager

DURATION
16 weeks

FORMAT
Live online classes with recordings

TIME NEEDED
8–10 hours a week

FEE
$2,000 · ₹1,74,000 approx.

What you'll be able to do

- Run discovery and turn research into clear problem statements
- Prioritise, write PRDs and user stories, and align stakeholders
- Plan sprints and ship with Jira, Confluence and Asana
- Define metrics, read funnels, write SQL and run A/B tests
- Design and ship AI features: LLMs, RAG, agents, evals and guardrails
- Build and launch your own website and AI prototype with Claude Code, Figma and Lovable
- Build a portfolio of 25+ case studies and a capstone
- Crack PM interviews with mock tests and 1:1 mock interviews

Curriculum

01 Product thinking and the PM role

What PMs do and how they decide · Product life cycle and delivery approaches (Agile, Scrum, Kanban) · Outcomes over output · Types of PM roles: B2C, B2B SaaS, platform, growth, AI PM

02 Product strategy

Vision, positioning and moats · Market sizing (TAM, SAM, SOM) and competitor analysis · Business models and pricing · OKRs and outcome roadmaps

03 Discovery and user research

User interviews and surveys · Jobs-to-be-done, personas and journey maps · Synthesis and insights · Research tools: Google Forms, Typeform, Dovetail, Hotjar, Microsoft Clarity

04 Problem framing and prioritisation

Root-cause analysis: five whys, fishbone · RICE, Kano, MoSCoW and value vs effort · MVPs and experiment design · Opportunity solution trees

05 UX, wireframes and Figma

UX principles and design reviews · Wireframes and prototypes in Figma and FigJam · Usability testing · Working with designers; Balsamiq and Miro for quick sketches

06 PRDs, user stories and documentation

Writing PRDs and one-pagers · User stories and acceptance criteria · Confluence and Notion for product docs · Writing PRDs with AI and getting them critiqued

07 Agile delivery with Jira, Confluence and Asana

Backlogs, epics, sprints and boards in Jira · Sprint planning, stand-ups and retros · Roadmaps and cross-team projects in Asana · Release notes and stakeholder updates; Linear, Trello and ClickUp compared

08 Analytics, SQL and experimentation

North-star, input and guardrail metrics · Funnels, cohorts and retention in Mixpanel, Amplitude and GA4 · SQL for PMs and Excel / Google Sheets · Dashboards in Looker Studio; A/B testing and statistics basics

09 Launch, growth and monetisation

Go-to-market planning · Growth loops, activation and retention · Pricing and packaging · Launch checklists and post-launch reviews

10 Tech and system design for PMs

How the web works: front end, back end, APIs and databases · Testing APIs with Postman · Cloud, scalability and trade-offs · Explaining systems in interviews

11 AI foundations for PMs

How LLMs work: tokens, context, hallucinations · Prompt engineering · RAG, embeddings and vector search · Evaluations, cost, latency, risk and responsible AI

12 Claude for product managers

Claude Projects for research, synthesis and PRDs · Artifacts: dashboards, mock-ups and documents · Connectors: Gmail, Calendar, Drive, Slack and GitHub · Skills and MCP: connecting Claude to your own tools

13 Claude Code: build and launch a website

Setting up Claude Code and GitHub · Building a landing page or product website from a prompt · Deploying free on Cloudflare Pages or Netlify, with your own domain · Adding forms, analytics and an AI chatbot; iterating safely with Git

14 AI prototyping and automation tools

Lovable, Bolt, v0 and Replit for app prototypes · Figma Make and AI design tools · n8n, Zapier and Make automations · ChatGPT, Gemini, Perplexity and NotebookLM for research

15 Agentic AI and AI product design

Agents, tool use and MCP · Human-in-the-loop and guardrails · AI metrics and evaluation · Writing an AI PRD

16 Capstone, mock tests and interview preparation

Capstone: build and pitch your own AI product · Weekly mock tests · Product sense, metrics, strategy, RCA and behavioural rounds · 1:1 mock interviews with feedback

17 Job assistance program

Resume and LinkedIn makeover · Portfolio of 25+ case studies · Referrals and job-search strategy · Offer negotiation and salary discussions

Projects

- 25+ real-world case studies across fintech, e-commerce, SaaS and consumer apps
- AI feature PRD with metrics and guardrails
- Your own product website, built with Claude Code and launched live
- Clickable Figma prototype tested with real users
- End-to-end capstone product

Tools you'll use

Product and delivery

Jira · Confluence · Asana · Notion · Linear · Trello · ClickUp · Productboard · Aha!

Design and collaboration

Figma · FigJam · Miro · Balsamiq · Whimsical · Slack · Loom

Analytics and data

Mixpanel · Amplitude · Google Analytics 4 · SQL · Excel / Google Sheets · Looker Studio · Hotjar · Microsoft Clarity

Research and testing

Typeform · Google Forms · Maze · Dovetail · Postman

AI assistants

Claude | ChatGPT | Gemini | Perplexity | NotebookLM | Microsoft Copilot

Build with AI

Claude Code | Cursor | GitHub | Lovable | Bolt | v0 | Replit | Figma Make

Automation

n8n | Zapier | Make

Your instructor

Varun Kumar

Founder and lead instructor, SkillNavora. Product manager and author of the 570-page SkillNavora PM Master Handbook.

Career support

Job assistance

- Resume and LinkedIn makeover with 1:1 reviews
- Portfolio of 25+ case studies, capstone and your live product
- Referrals through our network when you're job-ready
- Job-search strategy: target roles, companies and outreach
- Offer evaluation and salary negotiation guidance

Interview preparation

- Weekly mock tests on product sense, metrics and strategy
- 1:1 mock interviews with detailed feedback
- Question bank: product design, RCA, guesstimates, metrics, behavioural
- AI PM and system design rounds for PMs
- Practice with AI between sessions

Fees and scholarships

$2,000

₹1,74,000 approx. · Includes live classes, 25+ case studies, capstone, mock tests, 1:1 mentorship and the job assistance program.

- **Up to 100%: Merit scholarship.** For eligible candidates who do well in the SkillNavora scholarship test and interview. Limited seats every cohort.
- **Students: Students and freshers.** Special pricing for college students and recent graduates, with a valid student or graduation ID.
- **EMI: Flexible payment plans.** Pay the fee in easy monthly instalments, with plans for every cohort.
