INCREASING AOV AT ZEPTO · ASSIGNMENT

Grow the basket without losing frequency

By Varun Kumar · Product Manager

THE PROBLEM: MANY USERS…

- Place small, urgent orders
- Stop at free delivery
- Reorder familiar items

GOAL · 6 MONTHS
₹388 → ₹480

WHY IT MATTERS

₹388
AOV, flat for 3 years

₹547–750+
rivals' AOV

10–20%
of each order lost to delivery

₹78.75
loss per order, FY26

Part 1 Research → Part 2 Problem → Part 3 Solutions → Part 4 RICE

Baskets are small, but users are open to more

WHAT 10 ZEPTO USERS TOLD ME

90% baskets under ₹500

60% orders with 1–3 items

70% stop at free delivery

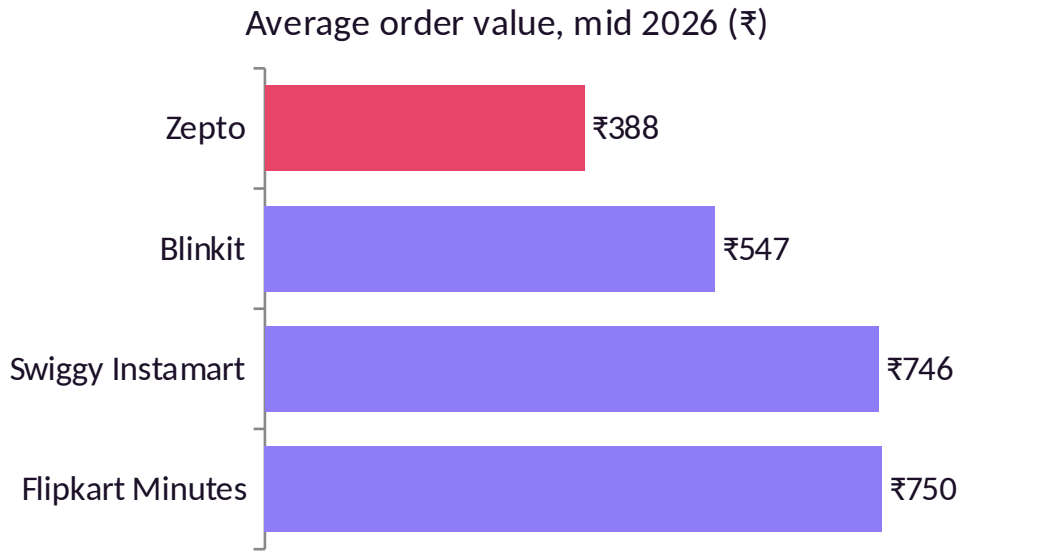

0% explore new categories

50% would add an item if it fits their cart: relevance, not discounts

4 SHOPPER SEGMENTS

60% are small-basket shoppers. Top-Uppers prove bigger baskets already happen.

Flipkart Minutes is ₹750+

MARKET DATA CONFIRMS IT

- Quick commerce is built for top-up, not stock-up
- ~58% add items only to cross delivery thresholds
- Zepto's AOV is the lowest of the big players

The app is built to finish fast, not to fill the basket

Pink = where basket building stops

4 BLOCKERS

Free delivery feels like a finish line
70% stop once it's unlocked

Suggestions are generic
Bestsellers, not what fits the cart

Search is too literal
"Chips" never shows salsa or dip

Single-mission shopping
One item in cart = job done

CORE PROBLEM

Users treat Zepto as a one-item tool, and the app never shows what goes with their cart. **The barrier isn't price; it's missing relevance at the right moment.**

ROOT CAUSE (5 WHYS)

Zepto's biggest strength, speed, is also its biggest blocker. Search, cart and metrics are all built for speed, not basket size.

Three fixes, one for each moment the basket stalls

1

WHILE SEARCHING

AI Shopkeeper

Say "pizza night for 4" and get a full, editable cart in one tap. Catches missing pairings at checkout.

Fixes: literal search, generic suggestions

8–12 item basket

Only relevant picks · sponsored labelled

2

BEFORE PAYMENT

Smart Deal Shelf

A short shelf of cart-matched, brand-funded deals just above "Pay." Always skippable.

Fixes: free delivery as the finish line

+₹40–100 per order

No countdown timer · one-tap skip

3

AFTER FREE DELIVERY

Zepto Surprise Box

A ₹49 / ₹99 curated box worth more than its price, never the same twice.

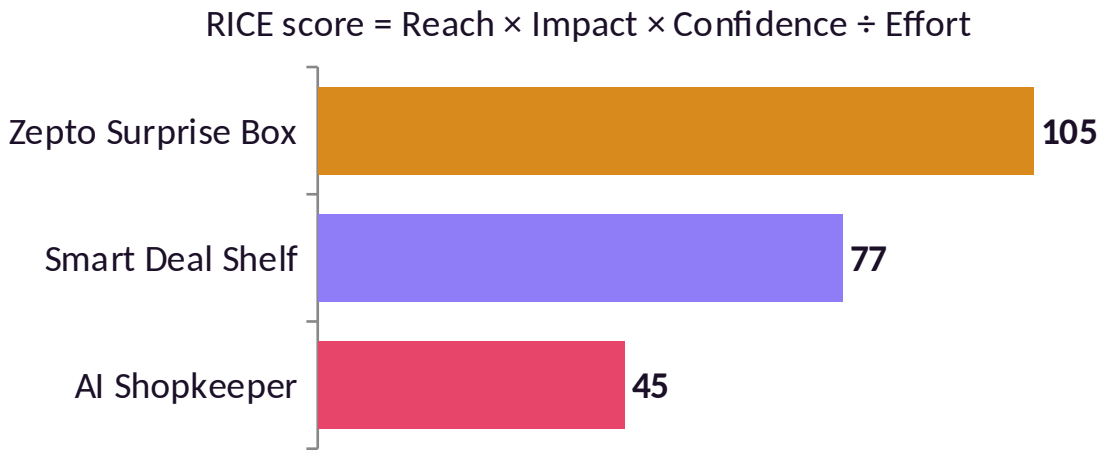

Fixes: no discovery of new items

+₹49–99 per order

Value shown upfront · never pre-added

MY RULE Relevant or silent · removing is as easy as adding · a one-item customer is never slowed down

Start with the quick win, then build the big bet

	Reach	Impact	Confid.	Effort
Surprise Box	9	5	7	3
Deal Shelf	8	6	8	5
AI Shopkeeper	9	9	5	9

Surprise Box wins: lowest effort, brand-funded, proves the idea in weeks.

NOW · 0–2 MONTHS
Surprise Box

NEXT · 2–4 MONTHS
Deal Shelf

LATER · 4–6 MONTHS
AI Shopkeeper

NORTH STAR
AOV ₹388 → ₹480
Also track items per order & attach rate

GUARDRAILS
Order frequency must not fall · checkout under 2 min · low remove rate. Launch to 5% first; roll back if frequency dips.
