PART 1 · MODULE A

Tools and confidentiality for remote support

The tools behind every admin role.

A1. Tools every assistant uses

Tool	Use	Official link (not checked live)
Google Workspace	Mail, calendar, documents	workspace.google.com
Microsoft 365	Outlook, Excel, Word, Teams	microsoft.com/microsoft-365
Trello, Asana, ClickUp	Task boards and project tracking	trello.com, asana.com, clickup.com
Notion and Slack	Notes and team messaging	notion.so, slack.com

A2. Confidentiality

Client information is private. Use strong passwords and two-factor authentication, share files through the client's own system, and never store passwords in notes. Sign a confidentiality agreement when the client asks for one.

VERIFICATION NOTE

Software features, plans, fees and legal rules change. Links point to official sites that were not checked live in this draft. Confirm tax, payment, telemarketing and data-protection rules with the official government or regulator pages, or with a qualified professional, before relying on them.
