PART 1 · MODULE F

Customer service and AI-assisted support

Replies, escalation and measuring satisfaction.

F1. Email, chat and voice support

Each channel has its own pace. Reply within the agreed time, use the customer's name, and confirm the next step.

F2. Ticketing, escalation and CSAT

A ticket records each request. Escalate when the answer needs a specialist or a decision. CSAT (customer satisfaction score) measures how customers rate the reply.

F3. AI-assisted support

Use AI to draft replies, then check facts and tone before sending. Never let an AI send a refund, a diagnosis or a legal statement without a person's approval.

VERIFICATION NOTE

Software features, plans, fees and legal rules change. Links point to official sites that were not checked live in this draft. Confirm tax, payment, telemarketing and data-protection rules with the official government or regulator pages, or with a qualified professional, before relying on them.
