Lesson 1.1: Industry-specific logo systems

What you learn

- **E-commerce logos.** Clean typography, a simple vector icon and high readability at small sizes such as a browser tab, an app icon and a packaging label.
- **Fintech logos.** Geometric symmetry, calm trust-building colours (deep blues and greens are common) and abstract marks suggesting growth, safety or flow.
- **System, not one file.** Deliver a primary logo, a compact mark, one-colour and reversed versions, clear space and minimum size.
- **Originality.** Check that the idea is not a copy of an existing mark; search before you deliver.

- Brand New

ASSIGNMENT

Practice for lesson 1.1

Business problem: Design two marks for one fintech.

Steps

1. Write the brand idea in one line.
2. Sketch six ideas and pick two.
3. Test each at 16 px and in one colour.

Expected output: Two readable marks and a note on which is stronger.

SOLUTION (ANSWER KEY)

A mark that survives 16 px in a single colour is robust. Record why you chose it.

Check yourself

1. What must an e-commerce logo do at small sizes?
   Answer: Stay readable.
2. Why deliver one-colour versions?
   Answer: For print, stamps and low-colour uses.
